**S&A Living**

## George

4 Panel Entertainment Unit

*Natural Oak*

# Meet George.

## Specifications.

Width 4800mm

Height 1800mm

Depth 450mm

Starting at  
**\$5,532** + gst

### Note.

- Minimum requirement for wall structure is 70mm x 45mm mgp12 at 450mm centres - construction may be delayed at cost of Metricon should this not be provided.
- All walls being fixed to musts be straight and plumb - construction may be delayed at cost of Metricon should this not be provided.
- All S&A Living Entertainment units will be installed at 300mm from FFL to the bottom of the backboard.
- S&A Living are not responsible for the removal of electrical points - these must be removed prior, and any cables are to be placed inside the wall cavity prior to installation.
- S&A Living are not responsible for the drilling of holes for power or data cables in any units - these works must be carried out by a licensed electrician after installation of unit.

## Technical Details.

### Installation.

Units should be centred to walls and alcoves unless otherwise specified in the quote. Installation window is after paint.

### Amendments to plans.

Plans should be amended to stipulate that walls must be straight and a maximum of 450mm between studs.

### Amendments post contract.

Yes. A new consultation is to be created by the IDC as per normal process. The deletion of old

documents are to be removed from BC data and an email noting the changes is to be sent to - [sales@sa-living.com.au](mailto:sales@sa-living.com.au)

### 2Pac paint colours.

Bench top 2Pac colours can be matched to any Dulux colour, as requested by the client. This must be entered by the colour consultant during final colours, unless it is placed in the 'notes' section of the original quote. 2Pac colour and paint code with corresponding area to be clearly noted within additional notes.

### Warranty.

We guarantee that all products

are free from manufacturing faults and defects for a period of 24 months from the date of original delivery.

### Electrical.

Placement of power points will be made as per consultation with the customer.

- Power-point to the backboard.
- Power-point to the cabinets.
- Conduit cable between backboard and cabinetry.

Any additional charges are to be confirmed by the Electrical Consultant.

### Functions available.

Available in drawers, pull-down cupboard doors and normal hinged cupboard doors.
